

**New brand.
Same us.**

As you know, FMX is a Computerized Maintenance Management System (CMMS).

01

We believe that our product has the ability to optimize your facilities and maintenance management by simplifying complex processes, cutting costs, and saving time.

FMX allows organizations to manage work orders, plan preventive maintenance, manage assets and inventory usage, track staff and equipment performance, and more, all in an easy-to-use calendaring system. This enables organizations, like you, to streamline processes, increase asset productivity, and turn actionable insights into meaningful results.

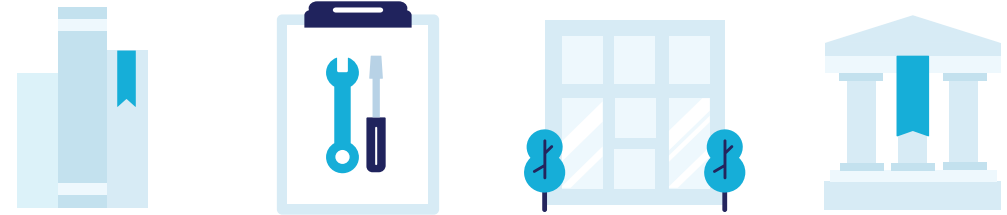

02

Our look may have changed, but our commitment never will.

New brand. Same us.

We've recently given ourselves a bit of a facelift, and while FMX's look might be changing, what we stand for isn't going anywhere. Our goal is to give organizations the ability to take charge of, and improve, their maintenance management processes. And we will stop at nothing to ensure that goal is achieved for you and the rest of our customers.

**Our approach
for success is
three-fold.**

01 We always put our customers first.

02 We build software that simplifies lives.

03 We pursue excellence.

We always put our customers first.

This means we are committed to providing you with top-notch support and ensuring all of your maintenance and facilities needs are met.

We build software that simplifies lives.

Simplicity is the foundation of FMX, and it is taken into consideration for all product enhancements and company decisions.

We pursue excellence.

We believe every organization should be able to easily and effectively manage their facilities and maintenance - and we work tirelessly to deliver maintenance management solutions that make it possible.

**Let's continue tackling
maintenance and
facilities management
together.**

Thank You!

We may look a bit different than before, but our values are rooted where they always have been. We will continue to put you and all of our customers first, make software that simplifies your job, and never settle for less than excellence while doing so.

Thank you for being such a trusted and loyal partner of FMX!
