

# Cleaning & Disinfecting Soft Surfaces

**For soft surfaces such as carpeted floor, rugs, and drapes**

1. Clean the surface using soap and water or with cleaners appropriate for use on these surfaces.
2. Launder items (if possible) according to the manufacturer's instructions. Use the warmest appropriate water setting and dry items completely.

These helpful tips are provided by the CDC and FMX. Print and post them prominently to help keep your employees and building occupants safe.
