

Tuscarora School District Made the Switch

# Tuscarora School District Can Now Operate in One Single Solution After Switching from SchoolDude to FMX

---

Tuscarora School District is a mid-sized, rural, public school district located in Franklin County, Pennsylvania. It serves the borough of Mercersburg and St. Thomas Township, Peters Township, Montgomery Township, and Warren Township.

The Tuscarora School District operates four K-5 schools, James Buchanan Middle School (6th-8th) and James Buchanan Senior High School (grades 9-12). High school students may choose to attend Franklin County Career and Technology Center for training in various trades.

## Here's why they made the switch.

### Challenges with SchoolDude

Before Tuscarora School District discovered FMX, they used SchoolDude to manage their maintenance and facilities, but they soon found that it wasn't meeting all of their expectations. It was challenging to use, limited their ability to make educated decisions, and left gaps in understanding what was really happening around the district. In short, their director of facilities & maintenance wasn't happy with what they were being provided.

### FMX: The Solution

Tuscarora School District switched to FMX and has seen a dramatic improvement in its processes. FMX's solution is so easy for all staff members to use and gives the school's director of facilities & maintenance the data he needs to make important educated decisions. With FMX, the facilities and maintenance department can now determine whether they are successfully meeting the needs of the teachers, other faculty, and overall district, which helps their team take necessary actions.

**"FMX gives us everything we need in a single solution. From helping us manage maintenance requests to scheduling events, it really does it all well."**

**- Stan Morgan, Director of Facilities and Maintenance**
